Linguistics : Applied Linguistics

Filipović, J., Goetz, G., Jovanović, A.S. (Eds.)

Teaching and Learning to Co-
create

- Approaches the learning experience as an opportunity for growth, for both students and teachers
- Combines transdisciplinary, participatory, and collaborative approaches
- Explores dynamic and higher-order learning experience design in practice

This edited book approaches the learning experience as a creative, constructive process from an epistemological orientation that combines transdisciplinary, participatory, and collaborative approaches to explore the most constructive ways forward for a networked constructivist (project- and problem-based) pedagogy. The volume emphasizes the value of a number of modes of inquiry that, among others, include ethnography, auto-ethnography, corpus analysis, narrative analysis, and their many intersections in the process of academic maturation and growth. This book will be of interest to applied linguists, sociolinguists, researchers, and educators of topics related to higher education and academic maturation, networked learning, qualitative inquiry and transdisciplinary studies.
