Challenges in Computational Statistics and Data Mining

Series: Studies in Computational Intelligence

- Presents recent Challenges in Computational Statistics and Data Mining
- Honorary book for Professor Jacek Koronacki on the occasion of his 70th birthday
- Demonstrates close connection between the areas of computational statistics and data mining and their applications

This volume contains nineteen research papers belonging to the areas of computational statistics, data mining, and their applications. Those papers, all written specifically for this volume, are their authors' contributions to honour and celebrate Professor Jacek Koronacki on the occasion of his 70th birthday. The book's related and often interconnected topics, represent Jacek Koronacki's research interests and their evolution. They also clearly indicate how close the areas of computational statistics and data mining are.
