Operator Theory, Function Spaces, and Applications

International Workshop on Operator Theory and Applications,
Amsterdam, July 2014

- Features original research articles as well as expository contributions
- Presents recent developments in operator theory and its multifaceted applications
- Includes papers dedicated to Damir Arov and Leiba Rodman

This volume collects a selected number of papers presented at the International Workshop on Operator Theory and its Applications (IWOTA) held in July 2014 at Vrije Universiteit in Amsterdam. Main developments in the broad area of operator theory are covered, with special emphasis on applications to science and engineering. The volume also presents papers dedicated to the eightieth birthday of Damir Arov and to the sixty-fifth birthday of Leiba Rodman, both leading figures in the area of operator theory and its applications, in particular, to systems theory.
