Biomedicine : Parasitology

Mehlhorn, Heinz, Heinrich Heine University, Düsseldorf, Germany

Human Parasites

Diagnosis, Treatment, Prevention

- Both a textbook for students and reference work for medical doctors, pharmacists and laboratory staff
- Richly illustrated throughout in full color
- Features life cycle illustrations and SEM and TEM micrographs
- Includes 60 questions testing the acquired knowledge

This textbook provides an up-to-date overview of the most important parasites in humans and their potential vectors. For each parasite, the book offers a concise summary including its distribution, epidemiology, life cycle, morphology, clinical manifestations, diagnosis, prophylaxis and therapeutic measures. Numerous tables, diagrams and over 200 colorful illustrations highlight the main aspects of parasitic infestations and present suitable control measures. 60 questions help to test readers' theoretical knowledge of the field. In short, the book is highly recommended for anyone looking to delve into the field of human parasitology. It is intended for students of biology and human medicine, medical doctors, pharmacists and laboratory staff alike. Furthermore, persons who plan to visit or live longer in endemic regions will find essential information on necessary preventive and control measurements.
