Fuzzy Sets, Rough Sets, Multisets and Clustering

- **Dedicated to Prof. Sadaaki Miyamoto**
- **Presents state-of-the-art papers on clustering, multisets, rough sets and fuzzy sets**
- **All contributions were written by respected experts in the field**

This book is dedicated to Prof. Sadaaki Miyamoto and presents cutting-edge papers in some of the areas in which he contributed. Bringing together contributions by leading researchers in the field, it concretely addresses clustering, multisets, rough sets and fuzzy sets, as well as their applications in areas such as decision-making. The book is divided in four parts, the first of which focuses on clustering and classification. The second part puts the spotlight on multisets, bags, fuzzy bags and other fuzzy extensions, while the third deals with rough sets. Rounding out the coverage, the last part explores fuzzy sets and decision-making.
