Neuro-Ophthalmology

Global Trends in Diagnosis, Treatment and Management

- Provides an overview of the current status of global neuro-ophthalmic healthcare
- Includes insight into the key differences in global treatment and care of neuro-ophthalmic conditions
- Written by a group of esteemed, international experts in the field neuro-ophthalmology

This book offers an overview on the most recent advances in global neuro-ophthalmic care. Global variation in the incidence and prevalence of specific neuro-ophthalmic conditions results in geographic differences in differential diagnosis, evaluation, management, and treatment of specific disorders. It covers a variety of disorders from optic neuritis, idiopathic intracranial hypertension to traumatic optic neuropathy. To understand the key differences in neuro-ophthalmic health care, this book has gathered recognized experts from around the world to describe and define these regional and geographic variations of care. By highlighting various international approaches to diagnosing and treating neuro-ophthalmic disorders, this book will be an essential guide for neuro-ophthalmologists, ophthalmologists, and neurologists seeking to build upon their clinical skills in a global context.
