Earth System Modelling - Volume 3

Coupling Software and Strategies

Series: SpringerBriefs in Earth System Sciences

- A unique review of existing coupling software used in Earth System Modelling
- Includes detailed technical descriptions written by the software developers themselves
- Covers the two main coupling approaches, the non intrusive one and the integrated one

Collected articles in this series are dedicated to the development and use of software for earth system modelling and aims at bridging the gap between IT solutions and climate science. The particular topic covered in this volume addresses the major coupling software developed and used in the climate modelling community.

2012, XVII, 76 p. 10 illus.
