Marina L. Gavrilova, C.J. Kenneth Tan, Anton Konushin (Eds.)

Transactions on Computational Science XIX

Special Issue on Computer Graphics

Series: Transactions on Computational Science

- Contains revised extended versions of 12 excellent papers, selected from those presented at GRAPHICON 2012
- Covers a wide range of computer graphics topics, from medical CT imaging to scientific visualization
- Includes a comprehensive Guest Editors' Preface introducing the papers, which is freely available on SpringerLink

The 19th issue of the Transactions on Computational Science journal, edited by Anton Konushin, is devoted to the topic of computer graphics. The 12 papers in the volume constitute revised and extended versions of a selection of contributions presented at GRAPHICON 2012, the 22nd International Conference on Computer Graphics and Vision, held in Moscow, Russia, in October 2012. The selected papers span the areas of scientific visualization, ray tracing, image processing, virtual reality, and stereo vision.
