Political Science and International Relations : International Relations

Jahn, Egbert, Frankfurt/Main, Germany

# World Political Challenges

Political Issues Under Debate - Vol. 3

- Analyzes general theoretical issues in world politics
- Highlights the fact that international conflicts of global relevance require coordinated peace policies
- Covers topics such as the increase in nation states and failed peace policy concepts

This volume focuses on several theoretical topics in world politics and analyzes prominent cases of global conflicts and their potential peaceful resolution. It covers issues such as the multiplication of nation states in the era of globalization, failed peace policy concepts in the 20th century, and the question of who was to blame for the outbreak of the Great War. The author discusses three influential patterns of interpretation of international relations and global events: the conviction that war is eternally rooted in human nature and history, the renewed interest in geopolitical thought and the theory of a clash between the predominantly religious-based civilizations. Finally, individual conflicts, such as the rebellion in several Arab countries, the potential war of intervention against Iran, the Indo-Pakistani-Chinese entanglement in the disputes over Kashmir and the present war in Ukraine are examined in detail.
