Environment : Sustainable Development

Höjer, M., Gullberg, A., Pettersson, R., Centre for Sustainable Communications (C KTH Royal Institute of Technology, Osquars backe 2, Sweden

Images of the Future City

Time and Space For Sustainable Development

- Offers an applied development of the futures studies approach backcasting, which is becoming increasingly popular; Presents an example of Interdisciplinarity, showing a result on what can be done when scholars from various disciplines take on a common subject; the three main authors include an environmental strategist, a sociologist and an economic historian; Provides a new approach to the field of sustainable cities

This book is an ideal complement to studies showing the potentially devastating ecological effects of climate change, studies trying to calculate the costs of climate change, and studies trying to identify the most pressing needs in preparing for the new climate.
