Delgado, João M.P.Q. (Ed.), University of Porto Faculty of Engineering, Porto

# New Approaches to Building Pathology and Durability

- Develops methodologies for the assessment of building defects and failures
- Offers methodologies for the prevention and mitigation of building defects
- Covers a variety of engineering disciplines such as civil, materials, and mechanical engineering

This book presents a collection of recent research works intended to assist in the effective management of service loss. It develops and evaluates methodologies for the assessment of defects and failures, and proposes methodologies for preventing and mitigating building defects. As such, the book will appeal to a broad readership of scientists, practitioners, students and lecturers.
