

Shiburaj Sugathan, N. S. Pradeep, Sabu Abdulhameed (Eds.)

Bioresources and Bioprocess in Biotechnology

Volume 2 : Exploring Potential Biomolecules

- **Comprehensively provides information on production of biologically active substances**
- **Includes chapters on bioprocess optimization including engineering aspects**
- **Provides in-depth information on sustainable utilization of bioresources**

This book is a compilation of detailed articles on various products and services that can be derived from bioresources through bioprocess. It offers in-depth discussions and case studies on commercially and therapeutically important enzymes, antimicrobials, anti-cancer molecules and anti-inflammatory substances. It also includes a separate section on emerging trends in bioactive substances research. This unique book is a valuable source of information for biotechnologists and bioprocess experts as well as academics and researchers who are actively involved in product and process development.

1st ed. 2017, XVIII, 438 p. 112 illus., 51 illus. in color.
