Cultural and Educational Exchanges between Rival Societies

Cooperation and Competition in an Interdependent World

- Includes historical and contemporary case studies of cultural and educational exchanges between rival states and societies
- Highlights both the positive and the negative effects of cultural and educational exchanges on mainstream and marginalized groups
- Discusses issues in peace education, conflict resolution, public and cultural diplomacy, and international relations
- Explores the effects of cultural and educational exchanges between institutions and individuals from North Korea and the West, Bosnia and Herzegovina, Israel and the Palestinian territories, India and Pakistan, China and Taiwan, Cuba and the US, and China and the US

This book stimulates discussions on cultural and educational exchanges between rival states and societies, raises awareness of the potential positive and negative impacts of such exchanges, and serves as a basis for future research and program design. Cultural and educational exchanges in various forms have existed for millennia. Yet it was not until the unprecedented human devastation of two world wars catalyzed a sense of urgency around the world that a new era of cultural and educational exchange programs emerged as a means of easing tensions between rival states and societies. This book is motivated by the need for critical research that can contribute to building a more comprehensive understanding of the issues at stake. It begins with a historical overview of cultural and educational exchanges between rival societies, an assessment of their positive and negative impacts, and a review of some of the most prominent theories in relevant fields. It then presents a diverse set of case studies, in which authors consider not only the real or expected benefits of such exchanges but also the potentially negative impacts, challenges faced along the way, and broader effects on the rival societies at large.
