Environmental Geotechnology

Proceedings of EGRWSE 2018

Series: Lecture Notes in Civil Engineering

- Presents latest fundamental research and case studies
- Discusses emerging technologies
- Includes contributions from international experts

This volume contains selected papers presented during the International Conference on Environmental Geotechnolgy, Recycled Waste Material and Sustainable Engineering (EGRWSE-2018). The multidisciplinary articles included in this volume cover the fields of environmental management, site characterization, environmental risk assessment, waste disposal, soil and groundwater remediation, habitat protection, and environmental rehabilitation. This volume will be of interest to professionals and researchers working in diverse fields ranging from geotechnical engineering, environmental engineering, hydrogeology, earth science, geochemistry, water engineering, and ecology, among others.
