Intelligent Decision Technologies 2019

Proceedings of the 11th KES International Conference on Intelligent Decision Technologies (KES-IDT 2019), Volume 1

Series: Smart Innovation, Systems and Technologies

- Includes recent research on intelligent decision technologies
- Highlights the interdisciplinarity of intelligent decision technologies, connecting computer science with the development of artificial intelligence; information systems with the development of decision support systems; and engineering with the development of systems
- Addresses such diverse areas as finance, linguistics, management and transportation

The book presents a collection of peer-reviewed articles from the 11th KES International Conference on Intelligent Decision Technologies (KES-IDT-19), held Malta on 17–19 June 2019. The conference provided opportunities for the presentation of new research results and discussion about them. It was also an opportunity to generation of new ideas in the field of intelligent decision making. The range of topics explored is wide, and covers methods of classification, prediction, data analysis, decision support, modelling and many more in such areas as finance, cybersecurity, economy, health, management and transportation. The topics cover also problems of data science, signal processing and knowledge engineering.
