Computer Networks and Inventive Communication Technologies

Proceedings of Fourth ICCNCT 2021

Series: Lecture Notes on Data Engineering and Communications Technologies

- Presents research works in the field of computer networks and inventive communication technologies
- Provides original works presented at ICCNCT 2021 held in Coimbatore, India
- Serves as a reference for researchers and practitioners in academia and industry

This book is a collection of peer-reviewed best-selected research papers presented at 4th International Conference on Computer Networks and Inventive Communication Technologies (ICCNCT 2021). The book covers new results in theory, methodology, and applications of computer networks and data communications. It includes original papers on computer networks, network protocols and wireless networks, data communication technologies, and network security. The proceedings of this conference are a valuable resource, dealing with both the important core and the specialized issues in the areas of next-generation wireless network design, control, and management, as well as in the areas of protection, assurance, and trust in information security practice. It is a reference for researchers, instructors, students, scientists, engineers, managers, and industry practitioners for advanced work in the area.
