Handbook of Suicidal Behaviour

- Is truly cross-cultural in perspective, and includes papers from scholars based all over the world
- Focuses on recent advances in research
- Provides a multidisciplinary approach to the understanding of suicidal behavior

This essential reference volume in the field of suicidology brings forth leading-edge conceptualizations of suicidal behaviour by including emerging trends and recent research advances in the field across the globe. It highlights the trajectories of suicidal behaviour, emphasizing the psyche behind attempting suicide, identifying vulnerable groups, and bridging the gap between theoretical underpinnings and application for addressing the aftermath of suicide. The handbook delineates research progress on risk assessment among vulnerable groups of varied milieu. Furthermore, it introduces various avenues of change and well-being. It also addresses important concerns related to terrorism and suicide in the armed forces. This handbook is a comprehensive repository of the latest research synergized with theoretical conceptualizations that pave the way for newer approaches towards management and prevention of suicidal behaviour. It includes contributions by eminent authors across the globe, and is a must-have resource for scholars, academics and professionals in the areas of mental health and social work.
