# Advances in Computer Methods and Geomechanics

IACMAG Symposium 2019 Volume 1

- Covers the latest research in the field of geomechanics
- Includes research by leading experts in industry and academia
- Provides views from interactions between industry, government, and academia

This volume presents selected papers from IACMAG Symposium. The major themes covered in this conference are Earthquake Engineering, Ground Improvement and Constitutive Modelling. This volume will be of interest to researchers and practitioners in geotechnical and geomechanical engineering.
