

Jindong Qin, Xinwang Liu

Type-2 Fuzzy Decision-Making Theories, Methodologies and Applications

Series: Uncertainty and Operations Research

- Provides a comprehensive overview of type-2 fuzzy sets and its extension
- Reviews type-2 fuzzy aggregation operations and ranking methods
- Illustrates type-2 fuzzy multiple criteria decision making methods using case studies

1st ed. 2019, XV, 271 p. 43 illus., 29 illus. in color.

This book integrates the type-2 fuzzy sets and multiple criteria decision making analysis in recent years and offers an authoritative treatise on the essential topics, both at the theoretical and applied end. In this book, some basic theory, type-2 fuzzy sets, methodology, algorithms, are introduced and then some compelling case studies in decision problems are covered in depth. The authors offer an authoritative treatise on the essential topics, both at the theoretical and applied end; In a systematic and logically organized way, the book exposes the reader to the essentials of the theory of type-2 fuzzy sets, methodology, algorithms, and their applications. Numerous techniques of decision making are carefully generalized by bringing the ideas of type-2 fuzzy sets; this concerns well-known methods including TOPSIS, Analytical Network Process, TODIM, and VIKOR. This book exposes the readers to the essentials of the theory of type-2 fuzzy sets, methodology, algorithms, and their applications.
