Advances in Communications, Signal Processing, and VLSI

Select Proceedings of IC2SV 2019

Series: Lecture Notes in Electrical Engineering

- Presents select proceedings of the International Conference on Communications, Signal Processing and VLSI (IC2SV) 2019
- Covers latest research and applications of signal and image processing
- Discusses recent advances in communications systems and integrated circuits

This book comprises the peer-reviewed proceedings of the International Conference on Communications, Signal Processing and VLSI (IC2SV) 2019. It explores the recent advances in the fields of signal and image processing, wireless and mobile communications, embedded systems, VLSI, microwave, and antennas. The contents provide insights into present technological challenges and discusses the emerging applications of different imaging techniques and communications systems. Given the range of topics covered, this book can be useful for students as well as researchers interested in the area of communications, signal processing, and VLSI technologies.
