# Transportation Soil Engineering in Cold Regions, Volume 1

Proceedings of TRANSOILCOLD 2019

- Geotechnical challenges faced in cold and arid regions
- Foundation strengthening and stabilization in permafrost
- Infrastructure maintenance, reconstruction, and disaster prevention in Arctic regions

This volume comprises select papers presented during TRANSOILCOLD 2019. It covers the challenges and problems faced by engineers, designers, contractors, and infrastructure owners during planning and building of transport infrastructure in Arctic and cold regions. The contents of this book will be of use to researchers and professional engineers alike.
