Mobile Information Systems II

IFIP Working Conference on Mobile Information Systems, MOBIS 2005,
Leeds, UK, December 6-7, 2005

Series: IFIP Advances in Information and Communication Technology

- Presents the most current research on and analysis of mobile information systems

Mobile Information Systems II provides a collection of research on the planning, analysis, design, construction, modification, implementation, utilization, evaluation, and management of mobile information systems. The articles focus on the implications of this research in the world of commerce, and address technical issues and constraints on mobile information systems functionalities and design.

2005, VIII, 318 p.
