Body Rejuvenation

- A whole-body approach to dermatologic and minimally invasive surgical rejuvenation
- Provides step-by-step algorithms and a wealth of clinical pearls
- Provides instruction on the management of adverse events

As patients and physicians have become familiar with facial rejuvenation procedures, there is growing interest in adapting techniques for use off the face. The same lasers, fillers, and other techniques that can improve the appearance of the forehead or lips, are useful for the chest or hands. Body Rejuvenation is the first practical manual that describes off-the-face minimally invasive rejuvenation. Sections are organized by body area, and within each section, individual chapters contain step-by-step treatment algorithms. Chapters are brief and concise by design, so interested readers can readily obtain the information necessary to treat patients successfully. Expert authors share their experience with body rejuvenation, so that you don't have to learn by trial and error.
