Juri Lotman - Culture, Memory and History

Essays in Cultural Semiotics

- Brings together, for the first time, Juri Lotman's most important articles in the field of cultural theory, memory studies and theory of history
- Offers a comprehensive introduction to Lotman's theory of cultural memory
- Demonstrates that Lotman was one of the first to identify memory as a major subject of cultural studies and the first to propose a general theory of cultural memory

This volume brings together a selection of Juri Lotman's late essays, published between 1979 and 1995. While Lotman is widely read in the fields of semiotics and literary studies, his innovative ideas about history and memory remain relatively unknown. The articles in this volume, most of which are appearing in English for the first time, lay out Lotman's semiotic model of culture, with its emphasis on mnemonic processes. Lotman's concept of culture as the non-hereditary memory of a community that is in a continuous process of self-interpretation will be of interest to scholars working in cultural theory, memory studies and the theory of history.
