# Proceedings of the Thirteenth International Conference on Management Science and Engineering Management

**Volume 1**

- Discusses recent issues in management science and engineering management
- Gathers the proceedings of the 13th International Conference on Management Science and Engineering Management (ICMSEM 2019), which was held in Ontario, Canada on August 5–8, 2019
- Presents the latest research directions in management science and engineering management

This book gathers the proceedings of the 13th International Conference on Management Science and Engineering Management (ICMSEM 2019), which was held at Brock University, Ontario, Canada on August 5–8, 2019. Exploring the latest ideas and pioneering research achievements in management science and engineering management, the respective contributions highlight both theoretical and practical studies on management science and computing methodologies, and present advanced management concepts and computing technologies for decision-making problems involving large, uncertain and unstructured data. Accordingly, the proceedings offer researchers and practitioners in related fields an essential update, as well as a source of new research directions.
