Urban Informatics and Future Cities

Series: The Urban Book Series

- Overview of the availability and application of Planning Support Systems (PSS) in the framework of Smart Cities, Big Data, and Urban Futures
- Provides insights into the field of Planning Support Science (PSScience)
- Edited by renown experts in the field

This book forms a selection of chapters submitted for the CUPUM (Computational Urban Planning and Urban Management) conference, held in the second week of June 2021 at Aalto University in Helsinki, Finland. Chapters were selected from a double-blind review process by the conference's scientific committee. The chapters in the book cover developments and applications with big data and urban analytics, collaborative urban planning, applications of geodesign and innovations, and planning support science.
