Mathematics : Functions of a Complex Variable

Rogosin, Sergei V., Koroleva, Anna A. (Eds.), Belarusian State University, Minsk, Belarus

Advances in Applied Analysis

- Addressed to a wide audience from post-graduate, master and PhD students to experts in analysis and its applications; suitable for the preparation of advanced courses for master and PhD students Provides a comprehensive overview on the results in related areas of modern analysis Explanations detailed enough to capture the interest of the curious reader, and complete enough to provide the necessary background material needed to delve further into the subject

This book contains survey papers based on the lectures presented at the 3rd International Winter School "Modern Problems of Mathematics and Mechanics" held in January 2010 at the Belarusian State University, Minsk. These lectures are devoted to different problems of modern analysis and its applications. An extended presentation of modern problems of applied analysis will enable the reader to get familiar with new approaches of mostly interdisciplinary character. The results discussed are application oriented and present new insight into applied problems of growing importance such as applications to composite materials, anomalous diffusion, and fluid dynamics.
