Harpe, P., Baschiroto, A., Makinwa, K.A.A. (Eds.)

# High-Performance AD and DA Converters, IC Design in Scaled Technologies, and Time-Domain Signal Processing

Advances in Analog Circuit Design 2014

- Includes coverage of high-performance analog-to-digital and digital to analog converters, integrated circuit design in scaled technologies and time-domain signal processing
- Provides a state-of-the-art reference in analog circuit design, written by experts from industry and academia
- Presents material in a tutorial-based format

This book is based on the 18 tutorials presented during the 23rd workshop on Advances in Analog Circuit Design. Expert designers present readers with information about a variety of topics at the frontier of analog circuit design, serving as a valuable reference to the state-of-the-art, for anyone involved in analog circuit research and development.
