Biomedicine : Pharmacology / Toxicology

Balali-Mood, Mahdi, Abdollahi, Mohammad (Eds.), Mashhad University of Medical Sciences, Mashhad, Iran

Basic and Clinical Toxicology of Mustard Compounds

- A reference book for the pharmacologists and toxicologists who are involved in teaching and research on mustard compounds
- A practical guide for the occupational, environmental, toxicological, military, medical, and health workers on safe use of MC and appropriate treatment of patients who receive NM and for possible SM exposure
- Provides basic information on mustard compounds for regulatory authorities in different departments of works, environment, industries, military, and health

This book offers a practical guide to the clinical management of sulphur and nitrogen mustard exposure including information on the history, pharmacology and toxicology of mustard compounds (MC). Basic and Clinical Toxicology of Mustard Compounds details the many resulting complications of sulphur mustard (SM) poisoning such as respiratory, Dermatological, Ophthalmological and Psychiatric. This volume is a key resource for clinical toxicologists, military and emergency physicians who are involved in the teaching and research of MC and for all medical and health professions who are responsible for the prevention, diagnosis and treatment of MC poisonings.
