# Controversies in Caring for Women with Epilepsy

Sorting Through the Evidence

- Case-based guide to the common clinical scenarios of women with epilepsy
- Covers epilepsy in women of adolescence, pre-conception, pregnancy and menopause ages
- Features evidence-based patient management plans from experts in the field

This text presents difficult management issues surrounding women with epilepsy in a unique format. The Editors provide several controversial cases in adolescence, pre-conception, pregnancy and menopause with invited experts offering their differing opinions. The Editors compare the clinical approaches and build a consensus based on the best available evidence. Professionals charged with managing this challenging patient group will be given insights on providing the best possible care based on current available data and expert opinion.
