

Timothy Lynch

The Future of Health, Wellbeing and Physical Education

Optimising Children's Health through Local and Global Community Partnerships

- Focuses on how the benefits of physical education can be introduced to children by global and local partnerships
- Promotes quality learning experiences in physical education
- Suggests how pre-service teachers can be supported and encouraged to ensure the future of physical education teaching

This book uses the example of a partnership journey between universities, schools, the local health industry as well as a number of government organisations which worked to ensure the growth of physical education in primary education. The initiative employed the United Nations (UN) ideals as a model and contextualised them within local schools and communities. What began as a pathway seed quickly grew to involve multi-stakeholder partnerships and therefore explores how the UN Sustainable Development Goals (SDG) may be implemented at a grass roots level.
