Formal Methods for the Quantitative Evaluation of Collective Adaptive Systems

16th International School on Formal Methods for the Design of Computer, Communication, and Software Systems, SFM 2016, Bertinoro, Italy, June 20-24, 2016, Advanced Lectures

Series: Programming and Software Engineering

- Original, readable and useful lecture notes written by leading experts
- Made for students, researchers and practitioners
- A detailed preface, introducing the chapters, is included in the front matter and is freely available for perusal on SpringerLink

This book presents 8 tutorial lectures given by leading researchers at the 16th edition of the International School on Formal Methods for the Design of Computer, Communication and Software Systems, SFM 2016, held in Bertinoro, Italy, in June 2016. SFM 2016 was devoted to the Quantitative Evaluation of Collective Adaptive Systems and covered topics such as self-organization in distributed systems, scalable quantitative analysis, spatio-temporal models, and aggregate programming.
