Carlos Samitier (Ed.)

Utility Communication Networks and Services

Specification, Deployment and Operation

Series: Compact Studies

- Addresses the specification of communication services in connection with operational applications for electrical power utilities
- Offers guidelines on the deployment or transformation of networks to deliver specific communication services
- Shows how smooth operation and consistently high quality of service can be achieved

This CIGRE green book begins by addressing the specification and provision of communication services in the context of operational applications for electrical power utilities, before subsequently providing guidelines on the deployment or transformation of networks to deliver these specific communication services. Lastly, it demonstrates how these networks and their services can be monitored, operated, and maintained to ensure that the requisite high level of service quality is consistently achieved.
