## Earth Sciences : Natural Hazards

Renaud, F.G., Sudmeier-Rieux, K., Estrella, M., Nehren, U. (Eds.), United Nations University, Bonn, Germany

# Ecosystem-Based Disaster Risk Reduction and Adaptation in Practice

- Targetted at Developing Countries and NGOs in particular
- Addresses key scientific and policy gaps on the topic of ecosystem-based Disaster Risk Reduction (DRR) and Climate Change Adaptation (CCA)
- Contains original contributions from authors and case studies from around the world
- Discusses the topic within the frame of relevant international debates such as the post-Hyogo Framework for Action discussions, UNFCCC negotiations and the new Sustainable Development Goals of the United Nations

This book is a compilation of recent developments in the field of ecosystem-based disaster risk reduction and climate change adaption (Eco-DRR/CCA) globally. It provides further evidence that ecosystem-based approaches make economic sense, and showcases how research has progressively filled knowledge gaps about translating this concept into practice. It presents a number of methods, and tools that illustrate how Eco-DRR/CCA has been applied for various ecosystems and hazard contexts around the world. It also discusses how innovative institutional arrangements and policies are shaping the field of Eco-DRR/CCA. The book is of relevance to scientists, practitioners, policy-makers and students in the field of ecosystem management for disaster risk reduction and climate change adaptation.
