Chemistry : Organic Chemistry

Kinghorn, A.D., Falk, H., Gibbons, S., Kobayashi, J. (Eds.)

Progress in the Chemistry of Organic Natural Products 105

- Written by recognized authorities in the fields
- Provides comprehensive and up-to-date reviews in the topic
- Part of a well-known series

The first contribution reviews the occurrence of xanthine alkaloids in the plant kingdom and the elucidation of the caffeine biosynthesis pathway, providing details of the N-methyltransferases, belonging to the motif B' methyltransferase family which catalyze three steps in the four step pathway leading from xanthosine to caffeine. The second contribution in this book provides a background on the molecule and related compounds and update knowledge on the most recent advances in Iboga alkaloids. The third contribution presents a comprehensive analysis of frequently occurring errors with respect to ¹³C NMR spectroscopic data and proposes a straightforward protocol to eliminate a high percentage of the most obvious errors.
