Handbook of Sustainability Science and Research

Series: World Sustainability Series

- Provides tangible examples from various countries of how the link between sustainable development and research may be pursued
- Provides an interdisciplinary perspective and reflective analysis
- Focuses on the key area of sustainability science and research that has not yet been fully explored

This multidisciplinary handbook explores concrete case studies which illustrate how sustainability science and research can contribute to the realization of the goals of the 2030 Agenda for Sustainable Development. It contains contributions from sustainability researchers from across the world.
