# Advances in Neural Computation, Machine Learning, and Cognitive Research

**Selected Papers from the XIX International Conference on Neuroinformatics, October 2-6, 2017, Moscow, Russia**

- Includes selected papers from the XIX International Conference on Neuroinformatics, held on October 2–6, 2017, in Moscow, Russia
- Reports on both the theory and applications of artificial neural networks
- Presents topics ranging from advances in machine learning to evolutionary programming and neuroimaging/neurobiology
- Offers a multidisciplinary perspective on neuroinformatics

This book describes new theories and applications of artificial neural networks, with a special focus on neural computation, cognitive science and machine learning. It discusses cutting-edge research at the intersection between different fields, from topics such as cognition and behavior, motivation and emotions, to neurocomputing, deep learning, classification and clustering. Further topics include signal processing methods, robotics and neurobionics, and computer vision alike. The book includes selected papers from the XIX International Conference on Neuroinformatics, held on October 2-6, 2017, in Moscow, Russia.
