Indian Women in Leadership

Series: Current Perspectives on Asian Women in Leadership

- Proposes ways to close the overarching issue of the gender gap in leadership from a uniquely Indian perspective
- Informs current and future leadership researchers and practitioners on how Western research can be modified in more indigenous, cultural contexts
- Emphasizes the importance commonalities and differences in research on and practice in women in leadership in India

This book provides intriguing insights into the development of highly qualified women leaders in diverse Indian contexts and their role at national and organizational levels. While India has made enormous economic strides in the past few decades, gender inequality and underutilization of female talent remain deeply rooted and widely spread in many parts of Indian society. This book addresses an urgent need to stop treating Indian women as underdeveloped human capital and begin realizing their potential as leaders of quality work. This book will fill the gap of research on international leadership for students, academics, and multinational organizations.
