Climate Literacy and Innovations in Climate Change Education

Distance Learning for Sustainable Development

- Explores links between climate change, climate-related threats to sustainable development and distance education
- Provides an interdisciplinary approach to online teaching for climate change mitigation issues
- Promotes theoretical frameworks, methodologies, and practices reconciling sociocultural challenges with distance educational movements

This book addresses the links between climate change and the threats it poses to sustainable development, from a distance education perspective. Discussing current trends and challenges in sustainable development education, climate literacy and innovations in climate change education, it contributes to the global debate on the implementation of education for sustainability. It also assesses the role that e-learning can play in this process, addressing pedagogical concepts as well as the wide range of technological options now available.
