Memories of Gustav Ichheiser

Life and Work of an Exiled Social Scientist

- **Presents an overview of the life and work of Gustav Ichheiser**
- **Discusses the field of psychology and the academic atmosphere during the early 1920s to late 1930s in Vienna**
- **Offers an in-depth summary on the history of the displacement of Jewish Scientists during the rise of National Socialism**

This book presents an overview of the life and work of Gustav Ichheiser, a social scientist in Vienna during the early 20th century. Gustav Ichheiser, along with many other Austrian Jews of his time, was forced into exile after the rise of National Socialism in Europe. Ichheiser's work is considered an important front runner to the attribution theories. He was one of the first to study the phenomena of social misunderstandings in detail and in relation to concrete problem areas, such as success. The aim of this book is to discuss, on an international level, the importance of Ichheiser's theoretical approaches in his time and their relevance in today's context of social and cultural psychology. In addition, the tragic course of Ichheiser's biography, an example for many displaced scientists, highlights the importance of bringing a scientist's work back into the focus of today's current social scientific setting. Memories of Gustav Ichheiser will be of interest to researchers as well as undergraduate and graduate students in the fields of psychology, social psychology, sociology, and psychiatry.
