Earth Sciences : Natural Hazards

Cooper, Mary Ann, Holle, Ronald L., African Centres for Lightning and Electromagnetics Network Inc. (ACLENet), River Forest, IL, USA

Reducing Lightning Injuries Worldwide

- Single resource on lightning fatalities and injuries currently widely dispersed across many disciplines
- Shows how it is possible to reduce the large loss of life and productivity from lightning in the developing world
- Combines recent knowledge of lightning, lightning detection, warning and safety into a single resource

This book is a resource for understanding why Lightning continues to be a major health hazard, especially in the developing world, and equips researchers, governments, and public health advocates with the knowledge and techniques needed to reduce lightning casualties worldwide.
