# Reducing Lightning Injuries Worldwide

Series: Springer Natural Hazards

- Single resource on lightning fatalities and injuries currently widely dispersed across many disciplines
- Shows how it is possible to reduce the large loss of life and productivity from lightning in the developing world
- Combines recent knowledge of lightning, lightning detection, warning and safety into a single resource
- 

This book is a resource for understanding why Lightning continues to be a major health hazard, especially in the developing world, and equips researchers, governments, and public health advocates with the knowledge and techniques needed to reduce lightning casualties worldwide.
