# Arterial Chemoreceptors

New Directions and Translational Perspectives

Series: Advances in Experimental Medicine and Biology

- State-of-the art research articles from researchers who are leading authorities in the field
- Selected reviews from plenary lectures invited to the associated meeting
- A comprehensive reference for anyone interested in chemoreception and its influence on cardiorespiratory diseases

This volume contains reviews and brief research articles from participants attending the International Society for Arterial Chemoreception meeting, to be held in the USA (July 2017). Each article contains original data and represents up-to-date information concerning the carotid body and oxygen sensing in health and disease. This volume is a required text for all researchers in the field of arterial chemoreception and will provide a valuable reference source for years to come.
