## Political Science and International Relations : International Political Economy

Kutlay, Mustafa

# The Political Economies of Turkey and Greece

## Crisis and Change

- Provides first systematic comparative account of Greek and Turkish political economies
- Probes into the dynamics of economic reforms in late-industrialized states with low state capacity
- Provides detailed analyses of Greek and Turkish case studies
- Develops a comparative political economy framework that explains reform cycles and post-crisis outcomes in reactive states
- Explains when and how economic crises lead to paradigmatic reforms in weak states

The economic policies of reactive states such as Turkey and Greece, both of which have shown limited ability to implement institutional reforms in recent years, have paved the way for deep crises. The crises are devastating for both societies' social fabric, but they also open up the opportunity to introduce new economic regimes. They do, however, not always invite changes in dominant paradigms. Despite weak state capacity and deep economic crisis in both cases, substantial reforms were initiated in Turkey whilst an opposite trend prevailed in Greece. Drawing on field research, this book develops a political economy framework that explains reform cycles and post-crisis outcomes in reactive states.
