Sustainability of Agricultural Environment in Egypt: Part II

Soil-Water-Plant Nexus

Series: The Handbook of Environmental Chemistry

- A comprehensive review
- Provides new insights into the challenges of a sustainable agriculture
- Will appeal to agronomists, scientists and policymakers alike

This volume discusses the sustainability of Egypt's agriculture and the challenges involved. It provides a comprehensive review and the latest research findings, and covers a variety of topics under the following themes: · Integrated natural resources management for sustainable production · Integrated biopesticides and biofertilizers for sustainable agriculture · Integrated plant and animal production for a sustainable food supply · Policies for sustainable agriculture in Egypt The volume closes with a summary of the key conclusions and recommendations from all chapters. Together with the companion volume Sustainability of Agricultural Environment in Egypt: Part I, it offers an essential source of information for postgraduate students, researchers, and stakeholders alike.
