Information and Communications Security

5th International Conference, ICICS 2003, Huhehaote, China, October 10-13, 2003, Proceedings

Series: Lecture Notes in Computer Science

ICICS 2003, the Fifth International Conference on Information and Communication Security, was held in Huhehaote city, Inner Mongolia, China, 10–13 October 2003. Among the preceding conferences, ICICS'97 was held in Beijing, China, ICICS'99 in Sydney, Australia, ICICS 2001 in Xi'an, China, and ICICS 2002 in Singapore. The proceedings were released as Volumes 1334, 1726, 2229, and 2513 of the LNCS series of Springer-Verlag, respectively. ICICS 2003 was sponsored by the Chinese Academy of Sciences (CAS), the National Natural Science Foundation of China, and the China Computer Federation. The conference was organized by the Engineering Research Center for Information Security Technology of the Chinese Academy of Sciences (ERCIST, CAS) in co-operation with the International Communications and Information Security Association (ICISA). The aim of the ICICS conferences has been to offer the attendees the opportunity to discuss the state-of-the-art technology in theoretical and practical aspects of information and communications security. The response to the Call for Papers was surprising. When we were preparing the conference between April and May, China, including the conference venue, Huhehaote City, was fighting against SARS. Despite this 176 papers were submitted to the conference from 22 countries and regions, and after a competitive selection process, 37 papers from 14 countries and regions were accepted to appear in the proceedings and be presented at ICICS 2003. We would like to take this opportunity to thank all those who submitted papers to ICICS 2003 for their valued contribution to the conference.
