# Glaucoma

Series: Essentials in Ophthalmology

- Overview of the newest developments in the field of glaucoma with application for the daily practice
- Indispensable for continuous education and advanced training
- Internationally renowned volume and series editors, i.e. distinguished editorial board only
- Invites papers from world-leading established experts
- Well-structured text and new design, quick and easy to read (e.g. with core messages, summaries for the clinician)

The series Essentials in Ophthalmology was initiated two years ago to expedite the timely transfer of new information in vision science and have been provided throughout each chapter. evidence-based medicine into clinical practice. Each subspecialty area now has been covered We thought that this prospicient idea would be once, and the response to the first eight volumes moved and guided by a resolute commitment in the series has been enthusiastically positive. to excellence. It is reasonable to now update our With the start of the second cycle of subspecialty readers with what has been achieved. coverage, the dissemination of practical information - Te immediate goal was to transfer information through a high quality quarterly publication the emerging advances in various ophthalmic in which ophthalmology would be represented by subspecialties that can be applied to obtain the eight subspecialties. In this regard, each issue has best possible care of our patients. Moreover, we had a subspecialty theme and has been overseen will continue to highlight clinically relevant - by two internationally recognized volume editors, who in turn have invited a bevy of experts cenance. G. K. Krieglstein R. N.
