Chemistry : Organic Chemistry

Berger, Ralf Günter (Ed.)

# Flavours and Fragrances

Chemistry, Bioprocessing and Sustainability

- Integrated and interdisciplinary approach on the future industrial production of flavours and fragrances and the issues related to this hot topic: How can traditional resources be maintained? Which are new sources that could replace exhausted ones? How can economy match ecology?
- The book describes the present state-of-the-art technology, the future use of renewable resources of flavours and the extended use of biotechnology in the future
