Digitisation and Precarisation

Redefining Work and Redefining Society

Series: Prekarisierung und soziale Entkopplung – transdisziplinäre Studien

- Digitisation, robotisation, industry 4.0 and the impact on societies
- Approaches the topic from distinct perspectives
- European Study on a central societal challenge

Currently it is fashionable to talk about digitisation, robotisation, industry 4.0, but also about the gig economy, the Millennials, precarisation and the like. However, the relevant issues are too often taken in isolation, referring to an extrapolation of overcome structures. The present collection aims on moving further by qualifying some aspects, and also by approaching the topic from distinct perspectives in order to arrive at an assessment of emerging changes of the socio-economic formation.
