ESSKA Instructional Course Lecture Book

Barcelona 2016

- Presents ESSKA Instructional Course Lectures by renowned experts from across the world
- Provides an excellent update on current scientific and clinical knowledge in Orthopaedics and Sports Traumatology
- Addresses a variety of interesting topics and open questions relating to pathologies and treatment approaches

This book, comprising the Instructional Course Lectures delivered at the 17th ESSKA Congress in Barcelona in 2016, provides an excellent update on current scientific and clinical knowledge in the field of Orthopaedics and Sports Traumatology. A variety of interesting and controversial topics relating to the shoulder, elbow, hip, knee, and foot are addressed, all of which are very relevant to the daily practice of orthopaedic surgeons. The coverage includes a number of open questions, such as: How should complications be handled during rotator cuff surgery? What errors may occur during anterior cruciate ligament surgery? How much attention must be paid to meniscal root tears? Do we now understand the pathology of osteoarthritis sufficiently well and do we always identify the most successful treatment for our patients? All of the contributions are written by well-known experts from across the world. The presentations will enable the reader to gain a better understanding of pathologies and may permit more individualized treatment of patients. The book will be of interest to clinicians and researchers alike.

1st ed. 2016, XV, 239 p. 109 illus., 74 illus. in color.
